

Dear Pet Owner,

We've given you this information because at Eastcott we want to help you look after your pet in the best possible way. It holds information about the Pet Health Club, a great way to cut the cost of routine veterinary care for your pet.

We encourage you to join this scheme because routine care is an important part of responsible pet ownership. It keeps pets in the best possible health and helps them lead a happier life.

Take a look at the price list and you'll see you can make great savings on the annual costs of what we call 'preventative maintenance' - helping you keep your pet in tip-top condition.

If you join the scheme, you can enjoy discounts on annual vaccinations, year round worming and flea control.

Upon reaching 8 years old your pet will also benefit from a FREE urinalysis & FREE blood pressure check which helps to detect the early signs of disease. Prevention is better than cure. You will also be entitled to 30% discount on blood tests carried out at the 6 monthly nurse health checks

We can't emphasise enough how important it is to provide routine veterinary care. And joining the Pet Health Club will help you do so for a fixed monthly cost.

Please look through this information, and if you have any questions we'll be delighted to provide the answers.
